

Student Retention Plan

This is your school's retention team's first meeting to discuss student retention issues. Your goal is to identify the common obstacles that students face while in your school that influence their persistence, resilience, and retention. Then you develop four strategies for reducing attrition on your campus. Prepare to share your findings with the larger Forum group.

Identify the common obstacles that students face while in your school.		Brainstorm some ways you might help students overcome these obstacles.	
Identify other student needs, which if met, could improve student retention.		Brainstorm some ways you might meet these student needs.	
Identify the role that each of these school staff play in student retention (How do they impact retention?).	President, Director of Education, Program Director:	Faculty:	Admissions Staff:
Financial Aid Staff:	Student Services Staff:	Graduate Placement Staff:	Other Staff (i.e., Receptionist):

Develop four strategies for reducing attrition on your campus.	Describe the tasks associated with the implementation of your strategies.		
1.			
2.			
3.			
4.			
Describe the methods your school will use to capture, analyze and use data related to retention. What type of data will you collect?
